

Birds of a Feather

Embark on an amazing flight through the world of the pigeon and dove. Did you know that there are over 250 varieties of pigeons and doves? Ever since Noah released the dove from the Ark (Genesis 8:8), these birds have had a close relationship with mankind.

Join pigeon fancier Greg West for a fascinating look at an **amazing variety of birds**. With live birds on display, you will learn about several types of pigeons and doves. You may encounter a homing pigeon, a tumbler, a giant runt, or another amazing avian. Make sure you bring a camera to this exciting show.
